

## HARDENER (PATLY)

### Main Characteristics

#### Product Characteristics

Liquid/Clear red colour

#### Instruction for use

- Make the stencil as required.
- Dry the screen thoroughly.
- Apply Patly on both sides of the finished stencil with a soft brush or sponge.
- Ensure that both sides of the screen are completely treated.
- Use a fan or allow to air-dry placing in a drying cabinet.
- Ensure that the entire stencil area is thoroughly dry before use.

#### Important

- Stencils that have been treated with Patly will be more difficult to remove and will require the use of a high pressure gun after decoating with Screenstrip.

### Features

- For higher water-resistance of direct photostencils.
- Design to use with polyester mesh and is not suitable for nylon mesh.
- Low odor.
- Easy to use.

### Standard Packing

25 Kg, 5 Kg and 1 Kg

### Safety and Handling

- Is free from any toxic, carcinogenic, mutagenic and reprotoxic chemicals.
- Does not have a flashpoint and is, therefore, exempt from the Highly Flammable Liquid Regulations.
- Patly should be used with care. Wear suitable PPE, for example, appropriate gloves and safety glasses.
- Should be stored away from children.
- Comprehensive information on *the Safety and Handling of Patly* in Chaiyaboon Material Safety Data Sheet.

### Storage

- Patly should be stored in a cool dry place at 0 – 35 °C.
- Patly can be stored for 36 months.
